## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first and second paragraphs, set forth in this Office action.

### ***Drawings***

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

Claims 1-12 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant considers the roll to be 'generally arcuate' even though the heart of the invention is the use of at least one flat surface on the roll periphery, and as many as three flat surfaces; clarification is required.

Claims 2-7, 12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no proper antecedent basis for 'the substantially flat section' in claims 2-6, 'the flat section' in claim 7, and 'the radially outer

portion' in claim 12. In claims 5 and 6, do all of the flat sections have the claimed angle?
